

Interview with Formula Windsurfing Mens European Champion – Przemek Miarczyński POL

Q – How do you feel, now you are the European champion FW?

Super happy – I did not expect it. The standard is very high, and my other commitments make it difficult for me to enter many formula events. I also borrowed my equipment – so really I am very happy with my title.

Q – Will this title change a lot in your future career as windsurfer?

Not really. My main focus is on RS:X and I have one more qualification event before I can be confirmed as Polish representative in Weymouth. I am confident about qualifying, which means my next years plans must be on RSX.

Q - What do you think about this FW Europeans and do you like the venue?

This championship was a good one, I enjoyed it very much. The organization was good, we had no problems with the racing, the race committee was well organized. The venue was a good choice , I hope we can come back with the Worlds.

Q- What do you think about the change to 2 sails and 2 fins and how do other sailors react on it?

I do not think moving from 3 to 2 sails changes a lot. Top guys will still have 3 sails and select two depending upon the forecast. The change is OK for me ; but maybe not so good for silver fleet racers.

Q – Do you have any suggestions to improve the number of sailors at an event especially for the women division?

Maybe a higher level of prize money will attract more of the pro's from PWA. Location is very important if we want to attract a big fleet – accessibility and cost are very relevant.

.....

Good luck next year Pont – from fw class
